

Trust Plast Masterbatches For
Consistent Quality

BLOWN FILM / INJECTION BLOW MOLDING **MASTERBATCHES**

WELCOME TO Bajaj Superpack India

Bajaj Superpack India established their masterbatch business in 1988 and produces high quality masterbatches. Bajaj Superpack India has large fully integrated production facilities in respect of manufacturing of high tech specialty masterbatches, polymer compounds for numerous applications in plastic industry. We have combined capacity of 120,000 MTA from our 4 locations. They are supported by highly equipped laboratories as well as cutting edge manufacturing facilities. Moreover Bajaj Superpack India places emphasis on high health and safety standards and has high commitment to protecting the environment.

- Bajaj Superpack India endeavors to serve the industry with optimum quality, latest products available in the market at the most competitive pricing. It provides different range of Calcium Carbonate, Talc, Masterbatches and TiO₂ base White & Colour Masterbatch, UV as well as speciality masterbatches. All grades are well accepted & adopted by various plastics processing industries.
- Bajaj Superpack India Masterbatches achieve the highest global standards for quality, service & performance. Its focus on latest technology enables improvement in productivity and reduction in material costs.
- Continuous R&D in Bajaj Superpack India has resulted in introduction of new generation products.
- Bajaj Superpack India constantly works towards developing a wider range of cost effective solutions for its valuable customers so as to give maximum value to their products & business.
- Bajaj Superpack India is the most trusted name for improving polymer process economics and product quality.

▶ Product overview

Overview of Bajaj Superpack India Grade Applications

Vegetable Film Packaging

Dispenser Pouch

Mulch Film

Biodegradable

HM Bags

Shopping Bag

Blown Film Extrusion

Masterbatch Grade	Typical Addition % w/w	Compatibility				Description
		PP	HDPE	LD	LLD	
Plast Fil	10-50		✓	✓	✓	Out standing mechanical properties even at higher loading, improves opacity of film, food grade, applicable in multilayer films, Increases output, saves cost
Plast High Mix PRM	10-35		✓	✓	✓	Saves cost, increases output, good printability
Plast Clear Film	15-35		✓	✓	✓	With negligible reduction in transparency, economic grade for transparent film
Plast Clear High Mix	15-30		✓	✓	✓	With negligible reduction in transparency, saves cost
Plast Modifier GP	5-10		✓	✓	✓	Out standing mechanical properties even at higher loading, improves opacity of film, food grade, applicable in multilayer films, Increases output, saves cost
Plast Biodegradable	2-5	✓	✓	✓	✓	Degrades the polymer mix. Property of polymer such as strength flexibility sealability and easy processability is not effected
Plast Black- 35/60	2-8	✓	✓	✓	✓	Carbon based premium grade, Super jet blacks for Monolayer film, Trapaulin & moulding.
Plast UV 01	1-3	✓	✓	✓	✓	Protects the polymers against UV degradation for food grade
Plast PPA	1-3	✓	✓	✓	✓	Ease of processability, increases output, eliminates the problem of melt fracture
Plast VCI	1-10	✓	✓	✓	✓	Corrosion protection for various packaging industry
Plast Desiccant	1-3	✓	✓	✓	✓	Ease of processability, increases output, eliminates the problem of melt fracture
Optical Brightener	1-3	✓	✓	✓	✓	Eliminates Yellowness increases the brightness of the product

Overview of Bajaj Superpack India Grade Applications

Multi Layer Blown Film Application

Improves Whiteness

Hygiene Gloves

Blown Flim Rolls

Wardrobe Hanger

Reduces TiO₂ Master Batch

Blown Film & Sheet Extrusion (Fluted Board)						
Masterbatch Grade	Typical Addition % w/w	Compatibility				Description
		PP	HDPE	LD	LLD	
Plast White	15-30		✓	✓	✓	Imparts opacity in films & saves cost, increases output
Plast Modifier	2-15	✓	✓	✓	✓	Reduces waste %, improves output, Increases addition of filler, saves cost.
Plast Clear Modifier	2-8	✓	✓	✓	✓	Improves gloss, shine & processability, reduces cost, higher loading in colour
Plast Stiff	15-30	✓				Improves stiffness, strength & surface properties, saves cost
Plast Super - 50	6-8	✓	✓	✓	✓	TiO ₂ based economy grade masterbatch for opacity
Plast Super - 70	3-5	✓	✓	✓	✓	Premium opacifying grade for film to comply with food regulations
Plast Modifier ML	2-10	✓	✓	✓	✓	Improves loading dart impact test & strength
Plast PPA	1-3	✓	✓	✓	✓	Ease of processability, increases output, eliminates the problem of melt fracture

Overview of Bajaj Superpack India Grade Applications

HDPE Injection Molded Crates & Pallet

HDPE Injection Moulded Pails

Injection Moulding Plastic Product

Injection Blow Moulding Product

Injection Moulding						Description
Masterbatch Grade	Typical Addition % w/w	Compatibility				
		PP	HDPE	LD	LLD	
Plast High Mix	10-25		✓	✓	✓	Improves ESCR, faster cooling, cost saving, no migration, excellent ageing, comply with food regulations
Plast Clear High Mix	10-25		✓	✓	✓	Act as a nucleating agent, optimum transparency, improves ESCR, faster cooling, cost saving, excellent ageing
Plast White	10-20	✓	✓	✓	✓	Reduces cost, improves output, enhances processability, improves whiteness
Plast Stiff	15-30	✓				Reduces cost, improves stiffness, improves strength & surface properties
Plast Clear	10-25	✓	✓	✓	✓	Acts as a nucleating agent, enhances printability & stiffness with optimum transparency, reduces cost
Plast Modifier GP	2-15	✓	✓	✓	✓	Reduces waste %, improves output, Increases addition of filler, saves cost.
Plast Clear Modifier	2-10	✓	✓	✓	✓	Improves gloss, shine & processability, reduces cost, higher loading in colour
Plast Super - 50/75	3-10	✓	✓	✓	✓	Ti ₂ based grade masterbatch for opacity in moulded products
Plast Black	1-10	✓	✓	✓	✓	Carbon based premium grade, Super jet blacks for Injection & Blow Moulding.
Plast UV 01	1-3	✓	✓	✓	✓	Protects the polymers against UV degradation for food grade
Plast UV 04	1-3	✓	✓	✓	✓	Protects the polymers against UV degradation for non food grade

Quality isn't something that can be argued into an article or promised into it. Must be put there. If it isn't put there, the finest sales talk in the world won't act as a substitute.

C. G. Campbell

Measurement is the first step that leads to control and eventually to improvement. If you can't measure something, you can't understand it. If you can't understand it, you can't control it. If you can't control it, you can't improve it.

H. James Harrington

The infographic is a grid of 18 colored boxes, each containing a different benefit or statistic related to BAJAJ Masterbatch. The benefits include environmental goals, waste reduction, experience, cost reduction, on-time delivery, production capacity, multi-location facilities, production efficiency, R&D investment, and customer satisfaction. A quote from a customer is also included.

- Working towards greener tomorrow**
Plast
High Performance Industry Specific Masterbatches
- 75%** Reduction in total wastage at customer's end
- More than three decades of experience
- OUR GOAL**
PROFIT
to our Customers
- Guaranteed **ON TIME** Delivery
- Multi Location Production Facility
- Pigment + Polymer = Masterbatches
Non toxic and environment friendly
- >**
15%
Cost reduction
Polymer + Bajaj Superpack Masterbatch = Reduced Cost
- Present annual capacity for masterbatch**
120000 MT per annum
- Achieves more than **99%** production efficiency always
- Increasing the % of our R&D investment focused for Development & Sustainable Growth
- BAJAJ**
Manufactures Masterbatches **BETTER**
- 99%**
- Increasing the % of our R&D investment focused for Development & Sustainable Growth**
- BAJAJ Quality = Profit**
- Satisfied customers world wide
- Quantity with Quality**
- “** Bajaj Superpack India **”**
doesn't talk the talk they deliver the talk **”**
